

**Inayati Leadership Training, March 30-April 2, 2017
Abode of the Message, New Lebanon, New York**

For all representatives, coordinators, coordinators in training, retreat guides, Cherag/Cheragas, healing conductors, Ziraat farmers and leaders in Khidmat.

As we all know, gathering in silence, prayer and meditation is important for us both individually and collectively. Shared thinking about the work of the Esoteric School in our time is also very important. For these reasons, I strongly encourage you to come and take part.

Yours ever,

Sarafil Bawa

Dear Friends on the Endless Path,

Please join us for these inspiring sessions with Sarafil Bawa and other senior teachers in our Order. There is a great power created by our being together, doing practices and meditating together. During this leaders' training, Bawa will present all three mornings on practices specifically drawn from the new representatives training forms. This will include sharing many practices together, particularly those that may not be familiar to many representatives.

Some of the topics covered in the afternoons will explore the growth and the evolution of the Order, such as the two types of initiation and six aspects of the Order, outreach and diversity, center development, the Message Council, emerging leaders, senior teachers,

Inayati Order board, relocation of Inayati Order Headquarters, and the future. The afternoons of the training will also have an emphasis on the guide/mureed relationship, training, and spiritual guidance.

A more detailed schedule of sessions will be coming soon. Please go to the Inayati Order web site to register.

Looking forward to seeing you.

Peace,

Khabira Brown, Vice President of the Esoteric School for North America

Azar Baksh Weiner, Aqdas Newmark - Inayati Esoteric Training Committee

Yaqin Aubert, Esoteric Secretary
